

How To Make Your Own Facial Oil (For YOUR Skin Type)

1

Choose A Carrier Oil

Dry Skin - Marula Oil + Almond Oil

Combination Skin - Argan Oil + Rosehip Seed Oil

Oily Skin - Jojoba Oil + Grapeseed Oil

Sensitive Skin - Morgina Oil + Aloe Vera Oil

Choose 1 cup of any oil combination

2

Add Dried Botanicals

Dry Skin - Rose + Helichrysum

Combination Skin - Comfrey + Calendula + Rose

Oily Skin - Lavender + Rose

Sensitive Skin - Calendula + Marshmallow Root

Choose 3 tablespoons of any combination of organic dried botanicals for your skin type.

3

Infuse The Botanicals

Heat 1 cup of oil(s) of your choice in a saucepan on low for 5 minutes.

Pour the oil into a sanitized mason jar filled with 3 tablespoons of organic botanicals

Add one teaspoon of vitamin E to this mixture.

Let the mixture cool and then seal the lid. Let this mixture infuse in a dark area for up to 3 months.

4

Bottle And Store

Pour the infused oil through a strainer into another sanitized glass jar and discard the flowers.

Store the oil inside the jar with sealed lid in a cool dark area for up to 6 months out of direct sunlight.
